Thank you to everyone who helped with the garage sale by donating, volunteering, and buying things! Special thanks to Holly Ruryk and Janet Pattison for coordinating this fundraiser for the church.

Have you ever sat and just watched the world around you? Maybe in a shopping mall or an airport. Maybe in a park or beside a creek. Maybe at your window. So much unfolds before us and within us every single moment. Wherever you are reading this note, just pause and take a breath. Look around you and notice something that amazes you.

From the beginning of time, the elements of life started cooperating. There is embedded in “life” a principle of learning to live together. Hydrogen and Oxygen come together to form water—an entirely new thing.

This Sunday, Mother’s Day, we continue our series, *An Unfolding Creation*, exploring this principle of cooperation in the universe. I hope you can join us.

An Unfolding Universe

- May 3 Creation Unfolding: Living inside a creation still in progress.
- May 10 Life Connecting: How relationship and cooperation helped life grow.
- May 17 The Universe Waking Up: Creation becoming aware – and entering wonder.
- May 24 Humanity Becoming: What future can emerge through our shared choices?

In gratitude,

valerie

IN OUR PRAYERS

- **Dave Turner** is in the Royal Alexandra Hospital. Please keep him and his partner Marne Edwards in your hearts.
- **Paul Fung** remains in the University of Alberta Hospital on the mend following hip replacement surgery.
